WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME DISC OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	Eye or muscle twitching	Loss of awareness
Altered vision	Involuntary movements	Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendinitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

⚠ WARNING - Electric Shock

To avoid electric shock when you use this system:

- Use only the AC adapter that comes with your system.
- Do not use the AC adapter if it has damaged, split or broken cords or wires.
- Make sure that the AC adapter cord is fully inserted into the wall outlet or extension cord.
- Always carefully disconnect all plugs by pulling on the plug and not on the cord.
- Make sure the Nintendo GameCube power switch is turned OFF before removing the AC adapter cord from an outlet.

⚠ CAUTION - Motion Sickness

Playing video games can cause motion sickness. If you or your child feel dizzy or nauseous when playing video games with this system, stop playing and rest. Do not drive or engage in other demanding activity until you feel better.

⚠ CAUTION - Laser Device

The Nintendo GameCube is a Class I laser product. Do not attempt to disassemble the Nintendo GameCube. Refer servicing to qualified personnel only.

Caution - Use of controls or adjustments or procedures other than those specified herein may result in hazardous radiation exposure.

CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned ON, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

Produced by the Isle Delfino Tourism Bureau

Welcome to

lovely Isle Delfino!

It's time for **FLUDD**
and me to **shine**!

What, you ask,
is Isle Delfino?

It's the **sun-drenched island resort** on
everyone's must-visit list, of course!

What can Mario
do on the island?

Mario's latest adventure is filled with action galore!
Mario **runs**, **swims**, **slides**, and **wall-jumps**
to the highest heights. With **FLUDD** strapped to his
back, Mario **drenches** enemies, solves puzzles,
and even takes to the skies! Oh, and **Yoshi's**
back, too, so saddle up!

I am
FLUDD.

Mario's Mission

Shine Sprite

It's up to Mario to clean up the mess on **Isle Delfino**, **solve puzzles**, and **defeat enemies**
in order to gather the scattered **Shine Sprites**.
Plus, he's got to reveal who's behind the
M **mystery**!

~Mario's Vacation Gone Wrong~

Close your eyes and imagine...soothing sunshine accompanied by the sound of waves gently breaking on the shore. High above, seagulls turn lazy circles in a clear blue sky. This is **Isle Delfino**.

Far from the hustle and bustle of the Mushroom Kingdom, this island resort glitters like a gem in the waters of a southern sea.

Mario, Peach, and an entourage of Toads have come to Isle Delfino to relax and unwind. At least, that's their plan...but when they arrive, they find things have gone horribly wrong...

According to the island inhabitants, the person responsible for the mess has a **round nose**, a **thick mustache**, and a **cap**...

What? But...that sounds like **Mario**!?

"Who could this mysterious figure be? He looks just like Mario!"

The islanders are saying that **Mario's** mess has polluted the island and caused their energy source, the **Shine Sprites**, to vanish.

Now the falsely accused **Mario** has promised to clean up the island, but...how?

Never fear! **FLUDD**, the latest invention from Gadd Science, Inc., can help Mario tidy up the island, take on baddies, and lend a nozzle in all kinds of sticky situations.

Can **Mario** clean the island, capture the villain, and clear his good name? It's time for another Mario adventure to get started!

Getting Started

Insert the Nintendo GameCube Game Disc and a Nintendo GameCube Memory Card (sold separately) into the console, close the cover, and turn the POWER Button ON. On the Super Mario Sunshine title screen, press START/PAUSE to continue to the file-select screen.

Beginning a Game

Insert the Memory Card into Memory Card Slot A, then follow the on-screen instructions to create a file for this game. Press **A** to confirm your choices.

File-Select Screen

•Playing for the first time

Use **○** to select a file block then press **A**.

Select START from the menu screen and press **A** again.

•Continuing a saved game

If you save a game that you're playing, you will be able to continue that game by choosing the file block containing the saved data the next time you play.

About saving

☞ Pg. 15

•To save game data, there must be at least **7 free blocks** on the Memory Card in Slot A.

•Once you have saved a game, the game can be continued from that point at any time. Make sure the Memory Card with the saved Super Mario Sunshine game data is properly inserted into Slot A.

•Please refer to the Nintendo GameCube instruction booklet (pages 18-20) for directions on how to format and erase Memory Card files.

Copying Saved Game Data

On the file-select screen, you can copy or erase saved game data. Select the file block that contains the saved game data that you want to work with, then select Copy or Erase from the menu that appears and press the A Button to confirm your choice.

•Once saved game data is erased, it cannot be restored. Be careful when erasing game data.

Score

Choose a file block containing saved game data, then select Score from the menu. Choosing Score allows you to check the number of coins and Shine Sprites you've collected up to that point. (**☞** Pg. 29.)

Options

On the file-select screen, choose Options to work with the following game settings. Use **○** to choose a setting and **A** to make your selection.

Rumble

Turn the Controller's built-in Rumble feature ON or OFF.

Sound

Yoshi can spit juice after eating fruit.  Pg. 28

NOTE! Yoshis found on Isle Delfino can't stand water.

Eat Fruit, Spit Juice!

The **juice tank** in the lower right-hand corner of the screen fills up when Yoshi eats a piece of fruit. Press **R** to **spit juice**. Use **○** to control the direction of the juice. The effect of the juice depends on the type of fruit Yoshi eats. Try eating many different kinds of fruit and test out the powers of the different juices. If Yoshi gets hungry, he'll head for home.

Juice Tank

Can juice be used for things other than shooting enemies...?

Fruit

Yoshi loves fruit! Besides feeding it to his dinosaur buddy, Mario can also kick and throw fruit. It may come in handy in surprising situations, so experiment!

Isle Items

Shine Sprites

These fellows embody the power of the sun and provide the energy that sustains Isle Delfino. Mario can **move to new levels** by collecting Shine Sprites.

Coins

Coins are scattered all over the island. Collect them to restore health to Mario's life meter. What happens when Mario gathers **100 coins**...?

Blue Coins

Pick up blue coins to regain two health points. These are rare coins that may interest a certain shopkeeper.

Red Coins

There are **8** red coins in each level, and each coin restores two health points. Collect **all 8 coins with one life** to get a Shine Sprite.

Water Bottles

These bottles fill up FLUDD's tank. Small bottles fill the tank halfway and large bottles fill it all the way.

1-Up Mushrooms

Get one of these magical mushrooms to get back a life. They'll also fill Mario's life meter and FLUDD's tank.

Game Play

From the Airstrip to Delfino Plaza

Meet FLUDD at the Airstrip and clean up the mess to get the first **Shine Sprite**. Next, move on to Delfino Plaza. Use every trick in the book and **FLUDD's power** to straighten up the place.

Delfino Plaza

NOTE!

All saved games will begin in Delfino Plaza.

Recover Shine Sprites to Move to New Episodes

Solve problems in each stage and **recover a Shine Sprite** to move on to a **new episode**.

There are multiple episodes in each stage. Complete them all!

Press **Z** or **B** to return to the game screen.

Advice for Troubled Travelers

How do I get to new stages?

Isle Delfino is being plagued by a series of problems. Investigating these problems and **clearing them up** should **open up new stages**. Be sure to talk with the island inhabitants, as they're full of vital information. When in Delfino Plaza, pay attention to **D.E.B.S.**, the Delfino Emergency Broadcast System. It displays the latest news and happenings at the bottom of the screen.

NOTE!

It's rumored that the **multicolored** *M* graffiti tags are key to this adventure. Have you seen any?

I don't know how to defeat enemies.

The most basic technique is to **jump** on enemies' heads. Mario can defeat or stun many enemies by **squirting them with water**. Throwing things at foes may also be worthwhile. Bosses and other special enemies can only be defeated by **certain means**, so try combining lots of moves to discover each baddie's weakness.

I'm having problems recovering Shine Sprites!

Here are some methods for gathering Shine Sprites.

- Struggle through obstacles to reach the Shine Sprite's resting point.
- If an enemy is carrying a Shine Sprite, defeat that enemy.
- Meet certain conditions to get a Shine Sprite from someone.
- Collect 8 red coins using only one life.
- Find objects hiding in secret places.

Each stage on the island, excluding Delfino Plaza, contains numerous episodes. Finish **each of these adventures** to recover a Shine Sprite. Some episodes are harder than others, so instead of struggling too much, it's sometimes best to try and complete other episodes first and then return to the difficult ones later in the game.

NOTE!

Individual episode titles appear when you enter a stage or at any time on the pause screen. These titles often contain hints on where the Shine Sprites may be or how they may be recovered.

I want to clean up Mario! He's covered in goop!

FLUDD can get rid of the pollution, right? Well, the power of water works for Mario, too. Simply get wet to get clean. Spinning at high speeds, like a living washing machine is effective as well.

The sunlight on the island is so bright...

As Mario recovers the scattered Shine Sprites, the sun over Isle Delfino slowly recovers its strength and gets gradually brighter. If you've got sensitive eyes, search out the **sunglasses vendor** in Delfino Plaza. You should be able to get some shades and give your eyes a break. To get rid of the glasses and see the world in its natural lighting, simply talk to the vendor again.

What are the round lids I see from time to time?

These are **manhole covers**. Perform a **ground pound** on them to drop through and pass underground. The subterranean tunnels here link up to various points and may provide valuable **shortcuts**.

When you drop through a manhole, the display will look like this. Stand directly below a manhole cover and press **A** to jump up and return to the surface.
